

Some general info about your child - what age are they and where do you live?

Charlotte is a prem baby. She came into the world at 27 weeks and is now 2 years old. She is a very interactive child, likes to play and learn.

At the moment Charlotte is in temporary foster care but I am aiming to have her back in my care soon.

Why did you start coming along to Wee Play?

For Charlotte to interact with other kids and learn what skills she can gain while attending these play groups.

What have been the benefits for your child coming along to Wee Play? What did they enjoy most? Have you noticed any change in them?

That she is meeting all different people and is a happy and gentle girl. Only changes I have noticed is that she's more confident to mix and doesn't feel scared.
